

**Product Description:** engineered to optimize the production efficiency and performance of the IQ-Synergy Taper. This surface tape features a unique thin-film construction that ensures consistent conformability across the full range of front curves. Its UV-cured adhesive delivers a reliable, secure bond to all lens materials while cleanly releasing without leaving any residue on the front surface

Part Number	Adhesion	Details
SC-98-0003-M	medium	33 m roll, 320 lens estimated, sold as each
SC-98-0002-M	medium	99 m roll, 970 lens estimated, case - 5 rolls
SC-98-0001-M	medium	210 m roll, 2,060 lens estimated, case - 5 rolls
SC-82-3311-MH	medium / high	33 m roll, 320 lens estimated, sold as each
SC-98-0099-MH	medium/high	99 m roll, 970 lens estimated, case - 5 rolls
SC-82-3303-MH	medium / high	210 m roll, 2,060 lens estimated, case - 5 rolls

### Technical Data

- Transparent blue thin film
- 0.10 mm film thickness and 112 mm width

### Features & Benefits

- OEM production roll of 210m provides you with up to 7 hours of operation
- Unique adhesive and thin film technology to support all lens curves and substrates
- No residual adhesive from auto or manual detaping process
- Performs well with all standard low melt alloys used for blocking

### Product Instructions

- Recommended to be used with OTT 80 CNC-A & IQ-Synergy Taper
- Can be used with semi auto or tabletop taping systems
- Adjust for proper vacuum and tape tension
- Avoid touching the surface of the tape to minimize risk of contamination
- Store in ambient temp between 40 - 80 °F / 5 - 26,6°C and out of direct sunlight

Valid: 30. June 2025, subject to change without notice
